HCG PHILIPPINES
GENERAL PRODUCT CATALOG

HCG Credo

It is the first room we go to when we wake up.
And the last room we go to before turning in.
It is the room that relieves us, relaxes us,
comforts us, cleanses us.

It is the room that takes care of us.
HCG believes we must take care of it.
The bathroom, the true living room.

"I can live here."

ABOUT HCG

Founded in Taiwan by Mr. Hocheng Chiu in 1931, the 80-year old company has always been inspired by the spirit of excellence and is committed to provide skillfully crafted, high-quality products with the seamless marriage of design and functionality. Noting its quality, prestigious international and local standards have confidently approved HCG products. In the 1990's, HCG was the first bathroom fixtures company to be listed publicly in the Taiwan Stock Exchange, with over 50% market share. In the 21st century, HCG became the #1 bathroom fixtures company in the Philippines, with more than 55% market share. Over the years, HCG prides itself in maintaining three state-of-the-art production bases in Asia, carrying the longest history and being the most recognized brand in Greater China. All these have elevated HCG as among the top ten brands of bathroom fixtures not only in the Southeast Asian region, but around the globe.

Professional and Innovative Design

From Taiwan to cities around the world, HCG's design is widely recognized. This is because its design philosophy is centered on sophisticated humanism, the ideal that every product should be created for the people who will use it. Ergonomics and personal taste are captured in pieces that exude beauty, achieve comfort and touch individuality. Unique visual messages created by renowned designers, more advanced and better solutions are exceptional features on form and function that ensure a total bathroom experience, making HCG a cut above the rest.

Powerful Sales and Service Team

In HCG, providing excellent service is an honor. Service is what HCG gives to the best people it calls its customers. Each customer enjoys a full range of pre and after sales service. Its professional service team covers an efficient nationwide network and offers expert assistance on replacing critical spare parts. To satisfy their every need and peace of mind, HCG gives them useful options to create clean, comfortable bathrooms, and to be the preferred brand when considering bathroom products.

HCG and Society

HCG is convinced that "success gives us the ability to care for community; our belief pushes us to act for social welfare." With this, the "HCG Cultural and Educational Foundation" was established which promotes social responsibility among entrepreneurs, advocates the spirit that "what is taken from community should be used for society," and is continuously involved in literary and artistic activities.

HCG strongly supports the movement in promoting action devoted to society and the environment. Developing environment-friendly and water-saving products creates low impact to nature while providing customers the quality they deserve. HCG's green bathrooms are sustainable solutions created for its Blue Responsibility to the earth. HCG sees the bigger picture: industry excellence creating meaningful change in the society. HCG upholds the bathroom as the true living room. HCG, I can live here.

HCG'S HISTORY

1931	Mr. Hocheng Chiu established Hocheng Pottery Manufacturing in Taiwan with an initial capital of USD 12.50 and started the HCG legend.	1989	HCG established North America Inc. sales & distribution point.	2005	Lazuli International Corporation was established to carry renowned international brands to cater to the high end market.
	<div><p>1991</p><div><div>啟型和</div><div>製陶成</div></div><p>1931-1939</p><div><div>和鶯</div><div>成歌</div></div><p>1940-1946</p></div>	1991	HCG was the first bathroom fixtures company to be listed publicly in the Taiwan Stock Exchange, with over 50% market share.	<div><p>1991-2005</p></div>	<div><p>2005-2010</p></div> <p>HCG became the #1 bathroom fixtures company in the Philippines, with more than 55% market share.</p>
1949	HCG began to manufacture tankless Japanese style toilet, entering into a new era of sanitary fixtures.	1992	HCG established the "HCG Cultural and Educational Foundation", devoted to the promotion of Taiwan traditional cultural heritage.	2006	HCG was certified as a "China Top Brand."
	<div><p>1947-1960</p></div>	1993	HCG launched its first showroom in Xiamen to penetrate the Mainland China market.	2007	HCG Suzhou factory received ISO 14001 certification. HCG established Indonesia office.
1962	HCG constructed a 70 meter tunnel kiln in Taiwan.	1994	To further strengthen its position in the international market, HCG successfully raised USD 80 Million through the issuance of Global Deposit Receipts.	2008	HCG received Triple A certification from the Sanitary Ware Association of China. HCG reconsolidated all global resources to put up HCG Holdings and UPEX Trading in China.
1980	HCG set up its R&D Department and started to produce original design sanitary products.	1995	HCG was recognized as part of the Top 10 Bathroom Manufacturers by American Ceramics Magazine and as one of the Top 100 Corporations by Forbes Magazine.		<div></div> <p>HCG signed up famous model Lin Chiling as HCG brand endorser.</p>
	<div><p>1961-1967</p><p>1967-1980</p></div>	1996	HCG's China plant began mass production on 150,000m² of land, with an annual production output of 2 million pieces. Meanwhile, HCG China established four branch offices for the expansion of the China market.	2009	HCG incorporated with the longest brass supplier, Yota Group, and established Shanghai and Xiamen Operational Center with sales amounting to \$80M.
1981	HCG launched its new global logo to signify its entry into the international market scene.		<div></div>	2010	HCG created bathroom solutions for Shanghai Expo through a technology that will make life better.
	<div><p>1981-1985</p></div>	1998	HCG built a manufacturing facility in the Philippines on 100,000m² of land, to cater to both the Southeast Asian and US markets, with an annual production output of 1.8 million pieces. Famous singer and actor Andy Lau sang "The Toilet" and HCG became the first in the industry and Asia to have a celebrity endorser.	2011	Hocheng Group celebrates 80 years.
1984	HCG engaged in a joint venture with Moen, Inc. to distribute faucets internationally through the establishment of the Hostan Company. HCG introduced the first one-piece silent water closet in Taiwan, the Alps Series which exceeded more than 100,000 units in sales in the first year alone.		<div><p>1986-1990</p></div>		<div><p>Since 1931</p><p>"I can live here."</p></div>

S-FORCE FLUSHING TECHNOLOGY

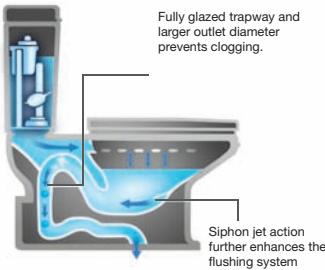

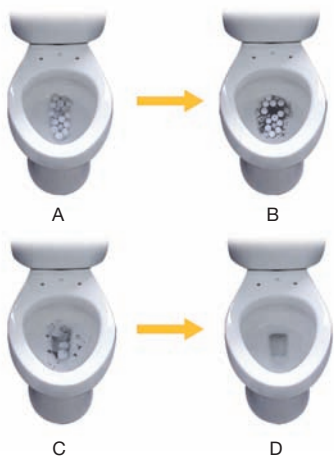

Extra-strong swirling flushing system, efficient trapway, instant cleaning!

The revolutionary powerful flush and fully glazed trapway allows for waste disposal to be smoother. This effective flushing system is further enhanced by reshaping the tank outlet and enlarging the trapway diameter to prevent clogging.

Results of a waste simulation test indicate that using the same amount of water, the S-force system can effectively pass an average of 12 pieces (600 g) up to a maximum of 20 pieces (1000 g) of simulated waste, which is way beyond the international standard of 7 pieces (350 g), while still attaining the 12 m minimum waste discharge distance required by local and international standards.

Revolutionary trapway design creates stronger flushing function.

HCG'S PRE-INSTALLED TANK FITTINGS

Ensures a worry-free installation.

HCG water closets are provided with pre-installed precise tank fittings that ensure exact water consumption every flush. Every part is accurately installed and tightened at 70 inch-pound using a torque wrench. This prevents any leakage and breakage usually seen in water closets whose tank fittings are not pre-installed.

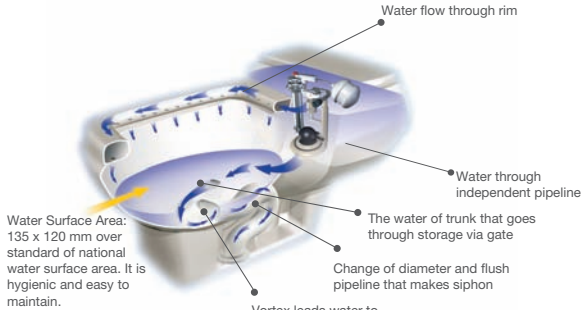

HCG SILENT FLUSHING VORTEX TECHNOLOGY

Low-noise, powerful flush.

All the features in a traditional siphon vortex flushing system are enhanced and revolutionized to provide silent water supply and discharge. This specially designed water closet allows for a flushing sound of as low as 30 dB to bring forth the tranquility and peace you and your bathroom deserve to have.

With a larger water seal area, odors are better controlled and cleaning is made much easier. The Chinese national standard for minimum water seal area is 100 mm x 85 mm. HCG's internationally recognized standard is 135 mm x 120 mm, much higher than the national standard.

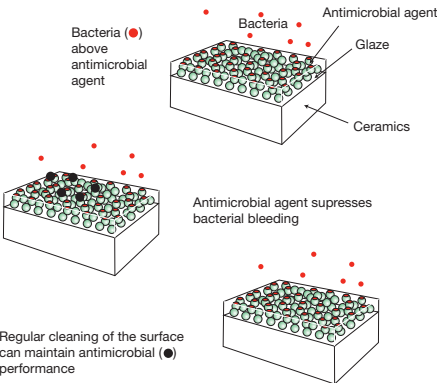

HCG’S ADB
NANO-TECHNOLOGY

HCG's ADB NANO-TECHNOLOGY
Your health is our priority

Silver (Ag), a non-toxic element, is well-known as an anti-bacteria and was widely used even dating back to ancient Greece and Rome. Antibiotics are used to kill bacteria and treat infections. Normal antibiotics can inhibit 6 kinds of bacteria, however, Silver can constrain up to 600 kinds of bacteria and fungi growth. Nano-technology activates and reinforces the anti-bacterial effects of Silver—this leads to a much cleaner bathroom and better personal hygiene.

True to its passion for fine detail and technological innovation, HCG pioneered in adopting the Nano-size Formulated Glaze application, creating the patented ADB (Anti-Dirt and Bacteria) technology. The ADB glaze is fired at a high temperature of 1200 °C, making the anti-bacterial effect permanent. It ensures dirt and bacterial protection for HCG products by glazing the whole product's surface at micro level—resulting in the industry's smoothest and glossiest finish. The smooth surface creates a hydrophilic effect, preventing dirt from bonding on to the ceramic surface, making it easy to clean.

HCG’S SOFT-CLOSE
SEAT AND COVER

Enjoy a more peaceful bathroom undisturbed by slamming toilet seats. HCG uses a unique roller device to create soft-closing seat and cover.

GEBERIT™ TANK FITTING

HCG is the first sanitary ware manufacturer in the Philippines to adopt the Geberit™ tank fittings for selective water closets. All HCG water closets with Geberit™ tank fittings are offered five (5) years warranty.

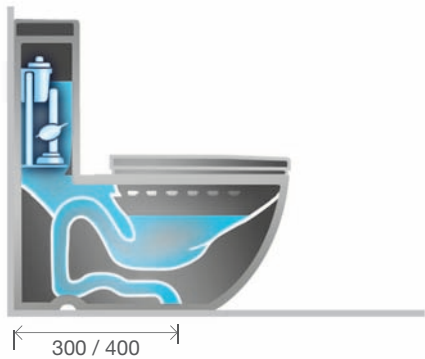

HCG’S ADJUSTABLE
ROUGH-IN FITTING

Adjustable Rough-In Fitting

HCG water closets are designed with an adjustable rough-in fitting that allows you to install them in either 300mm or 400mm measured distance from the wall. This flexibility enables you to adapt to the standards based on your location.

With this feature, toilets may be set up using the dry installation method, making it easier to uproot and repair.

HCG
CUSTOMER SERVICE

At HCG, each customer enjoys a full range of pre and after-sales service. HCG is equipped with a professional service team as an assurance that every HCG sanitary fixture that enters your home is backed with expert assistance.

HCG's Commitment to Quality:

- Ceramic products – 10 years limited lifetime warranty against cracks (under normal usage conditions)
- Faucet products – 1 year warranty; ceramic cartridge with 1 warranty against leaks (under normal usage conditions)
- Bathtub, automatic products, I-wash seat cover, bathroom cabinets - One year warranty (under normal usage conditions)
- Regular tank fittings: 1 year quality warranty/ assurance against leaks (under normal usage conditions).
- Well-trained professional team, providing quality service and assistance.

(HCG's warranty does not cover damage caused by external abrasion, improper maintenance, use of tools and parts not made for the specific product, chemicals, and electrical power supply factors.)

WORLD CLASS
CERTIFICATION

Before the green revolution took its peak in 2009, HCG had already been innovating products which take care of our environment. Consistent to its core values, HCG has been very active in promoting its HIGHLY EFFICIENT TOILETS (HET) to households and commercial establishments.

HCG's HET have been certified by the United States Environmental Protection Agency (EPA) with the WaterSense Label, which identifies a water-efficient product that has been independently tested and certified to meet EPA WaterSense criteria for efficiency and performance. Hence, thrust on innovation concentrates on conserving water without sacrificing the products' quality and performance.

HCG LEAD-FREE
TECHNOLOGY

Our products are recognized by the National Sanitation Foundation (NSF) for not using LEAD material in production to ensure consumers' health.

HCG PVD PLATING
TECHNOLOGY

PVD stands for Physical Vapor Depositon, a technology which is used in the Aerospace industry.

PVD tech-made products have smoother surface—no dent, no chip, rust-resistant and easy to clean.

It ensures bright and shiny surface for a longer time.

HCG HIGH-QUALITY
ACCESSORIES

Neoperl, a German-made aerator, is known to be one of the top three aerator brands in the world.

It has adjustable water outlet (±8 mm), which makes it more convenient to use.

Our product conforms to international standard.

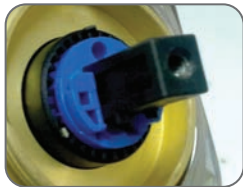

HCG HIGH-QUALITY
GERMAN-MADE CARTIDGE

CeramTec is one of the best cartridge-makers in Germany.

Its stable and high quality cartridge can offer over 500,000 times usage.

CeramTec conforms to international standards and is considered to be a Green Product.

CeramTec

BLUE RESPONSIBILITY

This is about you,
the other 6 billion people in the world, and Water.

All that lives are alive only because Water is.
Water and People are bound in a cycle
wherein that which who gives,
must also receive from those it sustains.

The continuity of this cycle
depends on the ability of People, involving us,
to meet the challenges of protecting this life-giving
resource.
HCG works for a healthier world through hygiene
that the People now and the next would enjoy.

We strive to achieve this ideal responsibly
by creating bathroom products
conscious of the environment, especially Water.

HCG believes that true hygiene conserves.

By making this statement, we pledge ourselves to
advocate
the views we assert and undertake the efforts
to achieve our vision by inspiring change and sparking
initiative.

Our vision will live in action.

Premium

A kind of life, a kind of stage

The first ray of sunlight in a clear morning draws a prelude to life.
Subtle extravagance and minimalist fashion create exquisite beauty amidst bustling city life.

"I can live here."

STYLE

The urban city hides life's beauty in every corner. Use your heart to look for the tiny details of style which can be found in your own bathroom.

SUPERLET

A futuristic design concept that combines innovation and ceramics. The integration of technology and aesthetics renews the interface experience between man and technology.

Smart Design

A. Automatic Sensor Lid

As you approach the Superlet, sensors detect your presence which allows hands-free opening of the toilet lid. The lid closes automatically 90 seconds after use.

B. Touch and Trigger Bidet

Bidet functions will only be triggered when the seat is occupied. The seat and cover has been specially designed to be wider, as it provides better comfort to its user.

C. Smart Controller

Adjust the position, water pressure and seat temperature with the wireless remote control (wall-mounted or handheld).

D. Deodorization Device

Carbon Deodorization Device: Automatic deodorization device activates for 3 minutes after you sit, and for 1 minute after you leave. If activated manually, deodorization lasts for 3 minutes.

E. Warm Drying Function

Drying function: Three level adjustable dryer - high, middle, low.

F. Smart Flushing

Sensors detect your presence and automatically flushes after you leave.

Self-cleaning Bidet

A. SPA Enjoyment

A self-cleaning wand extends from under the seat to release a smooth, front and back water spray.

B. Warm Cleaning Function

Temperature of the water may be adjusted according to your needs: high (40°C), middle (37.5°C), low(35°C), normal (room temperature).

C. Self-Cleaning Nozzle

Self-cleaning nozzle allows easier maintenance.

Safety Sensor

A. Energy Saving Sleep Mode

Set the Superlet for 6 or 9 hours sleep mode for energy conservation.

B. Electrical Safety Feature

When the electric current goes up to 15 mA, the Superlet immediately turns off for safety purposes.

C. Automatic Shut Off

Automatically shuts off when not in use after 24 hours.

Anti-Bacterial Features

A. Anti-Bacterial Seat and Surface

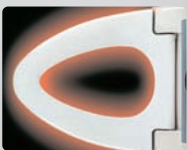

With its hygienic and easy-to-clean anti-bacterial Nano-glaze surface, you can be assured of hassle-free maintenance.

B. Adjustable Temperature Heated Seat

The heated seat, with anti-bacterial features, is suited for cold weather: high (40°C), middle (37.5°C), low(35°C).

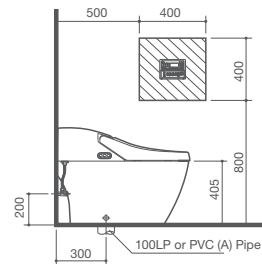

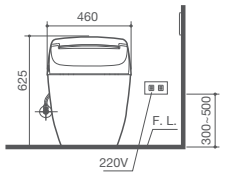

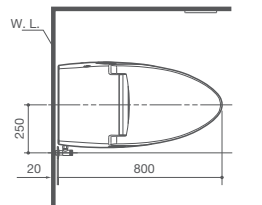

Superlet

Flushing system: Siphon jet
Available color: White(AW) / ADB
Water pressure: 0.5-5kgf/cm²

Note: Should have at least 60 days order lead time.

"I can live here."

CHINA STONE

China and stone are two different concepts.
As an integral appeal, national emotion
and national aesthetics, Chinese Stone is Zen.

Loretta Yang Hui-Shan (Designer)

Loretta Yang Hui-Shan is one of the most celebrated Taiwanese artists in the 1970's. Prestigious award giving bodies including the Golden Horse Award and the Asia Pacific Film Festival had recognized her unparalleled acting and charm – marking her influence and significance in the Taiwan Movie Industry.

In 1987, Yang committed herself to the Chinese modern “Liuli” art and founded the contemporary glass studio Liu Li Gong fang. She then discovered Pate-de-verre (lost wax casting) and brought Liuli art into international fame in a short period of time. Her works are in the permanent collections of New York Museum of Art and Design and Corning Museum of America, which houses her 2007 famous sculpture, The Proof of Awareness.

UNCONVENTIONAL

Perfecting her light and shadow techniques, Yang sculpted China Stone's unconventional form.

MULTI-GEOMETRIC

The stone's magnificence, subtleness and strong spirit combined with the classic Chinese temperament can now be found in your own bathroom. Celebrate the grandness of history and nature's enigmatic splendor in each geometric interface of China Stone.

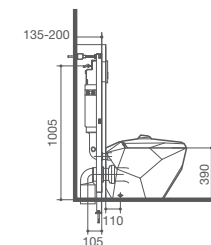

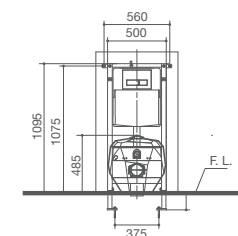

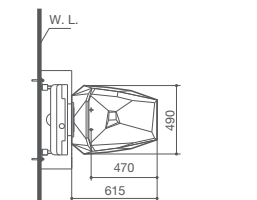

China Stone

C6840P

One-piece water closet
with soft-closing seat and cover
L615 x W490 x H485 mm

Note: Should have at least 60 days
order lead time.

"I can live here."

BADEN

Simple lines embody the world renowned European minimalist design; the fusion of lines and curves, the combination of an object with another object produces harmony, a perfected yin-yang. With HCG designers' profound understanding of Eastern and Western aesthetics and the plastic arts, the harmonious interplay of these elements are perfectly presented in this series.

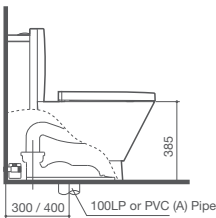

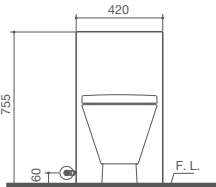

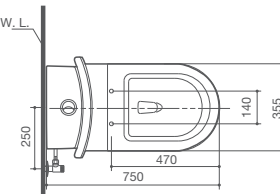

Baden

C5519L

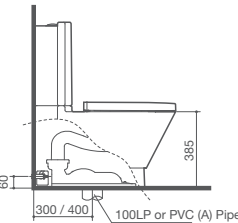

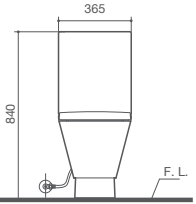

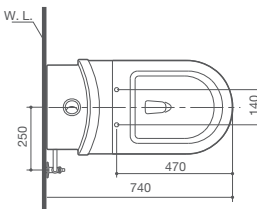

One-piece push button dual flush water closet with soft closing seat and cover

LEGATO

The Italian people like music, creativity and being in love, much like Legato, using an elegant curve, connecting notes, connecting life and art. Italian design gives a synergistic experience of beauty from the look of the product to the feel of it. Your sight treads along the flowing restful forms, then you realize... all you have to do now is enjoy.

Nilo Gioachini (Designer)

Italian designer Nilo Gioachini created Legato with his keen sense for music and elegance. Taking his cue from the smooth-sounding flowing water, he used curves as the core design element of this series. Legato's simple, well-toned shapes exude an opulent flair and an innate sophistication that can only be given by a master's touch.

GRACEFUL

Graceful lines are the visual guides that introduce a cozy atmosphere. The silhouettes of soft forms imbibe a mellow mood that is necessary after a tedious day.

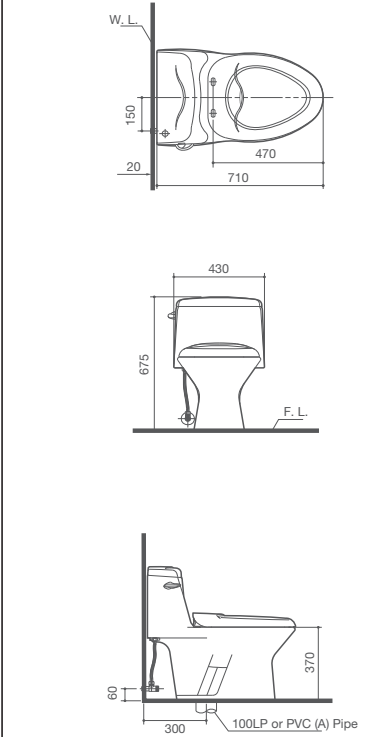

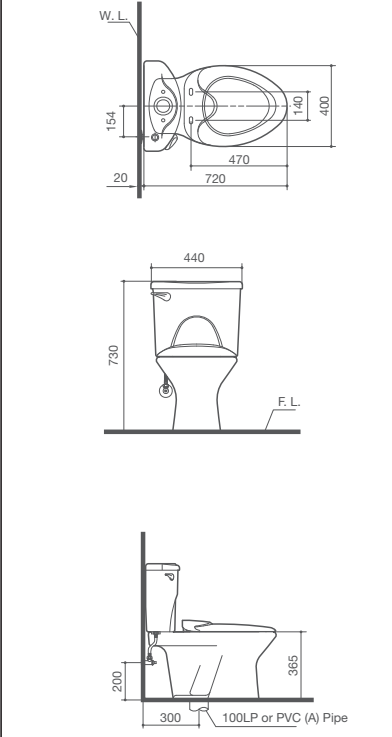

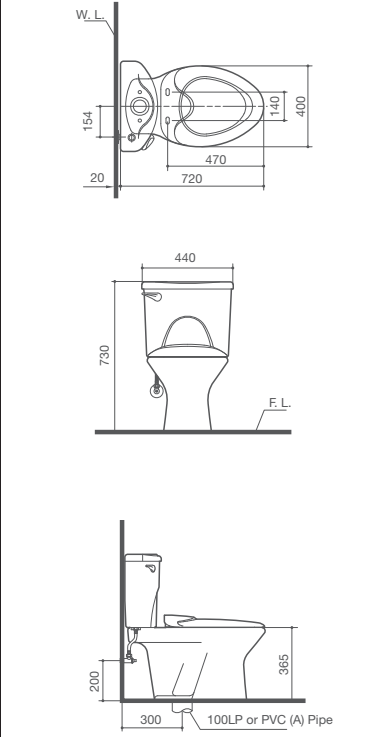

SYNERGISTIC

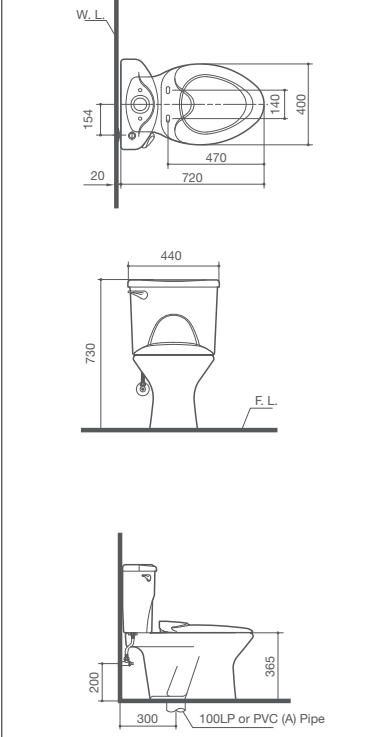

LEGATO strikes up a golden melody of beautiful space,
a string of moving tunes pouring out beauty and comfort of life.
Fall in love with life with this invigorating melody.

"I can live here."

TITAN

Powerful and Divine.
As its name implies,
Titan is the deity of bathroom fixtures
that exhibits massive water-saving features.
Titan's superb fusion of economical attributes
and grand physique will soothe your senses
day in, day out, with greater comfort.

VAST

Seize the day by thinking big and grand. Look forward to a day filled with great ideas. Aim for greater possibilities. Greet a brand new day with more ease by flushing out the perplexities of yesterday.

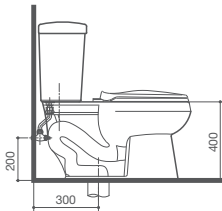

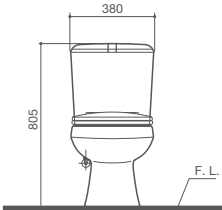

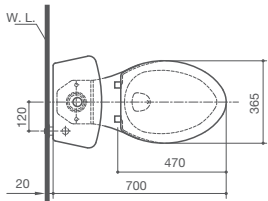

TITAN

Comfort

Sail through life the way you drift in the sea.

A child aged 10 desires for love, a youth aged 20 seeks for outlet, a life of 30 awaits for transition...
different ages, different fates; different experiences, different destinations. Everyone stands facing the
sea against the shore; the bigger the waves, the deeper the understanding.

"I can live here."

TITAN JR.

Little sweet Cosmos and Camellias
splendidly blooming in the celebrated spring,
all and small to please you amid the breeze.
Find dazzling beauty in compact things.

Some of the littlest things in life are the ones that give you happiness and ease. The space-saving solid style of Titan Jr. gives your bathroom more breathing space - an ideal choice to glam up a modest urban bathroom.

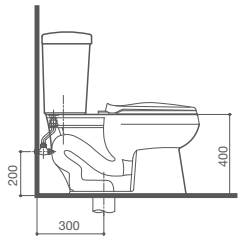

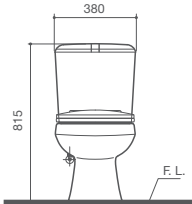

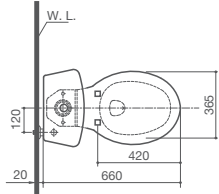

TITAN JR.

"I can live here."

MONET

Arcs and squares, serenity and simplicity,
the modern blend of contemporary design.
Gleaming in humble beauty,
veering away from clutter and complexity.

CALM

Loosen up at the comfort of your own bathroom with New Monet’s subtle elegance and technology. More than its physical form, the water closet also features hygienic bathroom experience with its anti-dirt and bacterial coated seats and covers.

Wash Basins

Every morning when you wake up,
feel the glory of this powerful entity.
Bathe in the smile of sunshine,
cool down the tired, weary skin,
sprinkle it to a budding flower until it
reaches its full bloom.
Through glittering and translucent water,
confusion and gloom are washed away
like dark clouds being blown away.
As this spiritual journey begins again,
the bathroom plays as your own doorway -
a transit point to reflect and celebrate life.

Showers and Faucets

The sound of flowing water,
one of the purest in the world.
Clear and cheerful in rhythm,
either in the state of vigor or stillness.
Sweeping off fallen flowers,
washing away years of sentiments,
releasing the deepest emotions.
Water leads us to the simplest way
to happiness and appreciation.

Kitchen Faucets and Sinks

Rushing water – an imagery of abundance,
a sign of life, an everyday essential.
Before the graces in the table touch our lips,
the magnificence of water caresses it first.
Emanating from the faucet that cleanses,
filth drained down by the basins,
this life giving resource flows
endlessly with purity, giving vitality.

HCG and Society

With a history of almost 80 years, HCG strives to give back to the community. HCG is convinced that “succes gives us the ability to care for the community; our belief pushes us to act for social welfare.” In memory of our founder, Mr. Hocheng Chiu, the “HCG Cultural and Educational Foundation” was established. The foundation promotes social responsibility among entrepreneurs, advocates the spirit that “what is taken from community should be used for society,” and is continuously involved in literary and artistic activities.

One such activity is the concert “My Hometown and Land—Taiwan Folk Symphoniv Poem” which HCG organized to promote Taiwan’s folk music. The concert enjoyed great success and CDs released during this event have been well recognized in Taiwan and abroad.

HCG also set up the “Golden Ceramics Award” to encourage the creation of pottery, fulfilling its motto of: “born in ceramics, benefit from ceramics.”

In the Philippines, HCG is actively involved in various community improvement and environmental protection undertakings, such as providing clean toilets for public schools, partnering with social organizations such as Gawad Kalinga and Meralco Foundation, as well as participates in tree-planting projects as part of an advocacy to save water.

Meanwhile, in China, HCG has donated towards the reconstruction of Sichuan Provinces and devoted to public welfare. In Suzhou, HCG donated free sanitary fixtures to Jingchenghu primary school. In Henan, HCG supplied free sanitary wares to Morning Tears Children’s Village (Assistance and Protection of Street Children). In Sichuan, HCG donated free sanitary wares to Dujiangyan Dingxin primary school and Dingxin Fuxin primary school.

HCG cares for society and the environment. HCG puts social responsibility to its corporate culture and understands the concept of commitment to community.

HCG Believes: Harmony Brings Wealth

Working as a big family, HCG believes that harmony brings wealth. HCG respects the value of each staff. Over fifty percent of HCG’s workforce has been with the company for more than 15 years. Mr. Sam Chen, CEO of Hocheng Group Holding Corporation, said: “Since my graduation I have worked in HCG. It has been 29 years and I enjoy each day!” As the song sang by Andy Lau, “The Toilet” goes: *The bathroom is our friend*. HCG is the family of each employee. HCG makes each staff love a bathroom fixtures career. Each is responsible and takes ownership of the company. HCG, “I can live here!”
